Innovative, Interoperable  
Healthcare Automation

## The Only *ONE* You Need!

# e-Medsys EHR Version 5.2

- *Can integrate with your existing PM system*
- *Access patient records from anywhere using secure internet connectivity*
- *Improves office workflow and productivity*
- *Supports voice / handwriting recognition*
- *Eliminates lost or misplaced charts*
- *Reduces / eliminates costly and time consuming transcription*
- *Includes Features such as:*
  - e-Prescribing and comprehensive Prescription / Medication Management
  - PracticeOne's own Patented E / M Coder
  - PracticeOne's own Patented Health Watcher for health maintenance
  - Electronic Superbill for quick on-the-fly posting of procedures and diagnoses
  - Quick ordering of lab tests and obtaining of lab results

Search Messages:

The Physician's Home Page provides a view of daily Schedules, Health Maintenance items requiring immediate attention or signature approval, and an intra-office Messaging System that tracks and documents office communications and patient care.

An Inbox / Outbox view of "Action Items" is available to streamline messaging. This tool eliminates stacks of charts, "sticky notes," and reports that typically clutter the physician's desk.

Comments: CC TO KGH NUCLEAR MEDICINE

1 of 1

- Automatically notifies physicians of high, low, and out-of-range results
- Routes reports with attached notes for approved review by others
- Review diagnoses from previous encounters
- Select outside providers to be copied on results
- Print Medicare waiver forms for tests that might not be covered
- Reliably transfers all lab results and other data directly into charts

e-Medsys EHR Health Watcher supports care plans, guidelines, and / or protocols for the management of specific conditions that are based on factors such as patient age, gender, diagnosis and laboratory result values.

The system generates alerts for appointment recalls, prescription refills and laboratory orders. Alerts are automatically issued to the provider regarding any past due health maintenance issues.

- Superbills can be created based on visit chart items already established; automatically gathers codes from labs ordered, medications prescribed and procedures documented in visit notes
- Automatically posts procedures and diagnoses *at the end of the encounter* for quick billing, eliminating the need for staff to post manually from paper superbills

# What PracticeOne Clients Say...

*"This EHR has revolutionized medical record keeping at our practice. We have greatly improved clinical communication and compliance. The EHR database is of enormous value to our practice-based research division, yielding quicker and more accurate patient evaluation for inclusion in clinical research studies."*

-Bruce Fisch, MD Denver Nephrology Associates

*"This Electronic Health Record is a timesaver! No more lost charts or phone messages. Everything is organized and where it should be, from physician notes, to medications, to lab orders and results, and to correspondence. It has made the flow of our office more effective."*

-Daniel Vaughn, MD Family Practice

*"With e-Medsys EHR I stay in close touch with my practice even when working from home or on travel, wherever there is an internet connection."*

-Scott Maurer, MD Internal Medicine

# PracticeOne Advantages

- **Client / Server...** e-Medsys resides on a server at the practice,  
– or –
- **ASP / SaaS...** e-Medsys resides on our secure servers and is accessed - and used - via secure Internet connectivity.
- **e-Medsys Patient Access Portal...** a dynamic adjunct to e-Medsys EHR is PracticeOne's own Portal that provides incredible "self serve" capabilities for patients to:
  - Schedule practice-approved *real time* appointments
  - Complete questionnaires / "paperwork" in advance of the appointment, with patient data flowing directly into their e-Medsys EHR record...no more clipboard on arrival, no more manual completion of paperwork, and no more manual input of data by office staff
  - Edit demographic / insurance information as needed without requiring staff time
  - View practice-approved medical information
  - Securely message the practice, and vice versa
  - Patients can utilize the Portal any time at their convenience, 24x7x365
